Falcon™

THE UNIVERSAL DOCUMENT SCANNING WORKSTATION

Falcon™ combines OPEX's innovative one-step drop feed scanning with the performance of a high-capacity production scanner, providing the only universal document scanning workstation on the market. Regardless of your document scanning needs, Falcon is designed to attack the most difficult and daunting workflow challenges.

ENHANCED FUNCTIONALITY AND UNMATCHED FLEXIBILITY

Falcon allows operators to prep and scan documents at a faster rate than most current prep only processes. This significantly reduces costs associated with preparing documents for scanning. In addition, Falcon offers four versatile feeder options: drop-feeder, packet feeder, high-capacity feeder, and a unique rescan feeder.

Falcon scans everything from single sheets in a wide range of sizes to multiple, large stacks of paper. The Falcon conveyor can hold more than 700 pages at any given time, allowing maximum throughput and uninterrupted processing. From thick paper to onion skin and fragile or damaged pieces, from envelopes and file folders to receipts, to small forms and business cards – nearly any style or type of document can be scanned! With the optional external capture device and software, three dimensional objects can be imaged and placed directly into the electronic record.

Engineered with various applications in mind, Falcon is available as a Transportable unit, making it a perfect fit for mobile-scanning operations. When fitted to the OPEX Model 72 Rapid Extraction Desk, FalconRED™ is the fastest, most efficient way to process payments and scan documents directly from the envelope.

IMPROVED EFFICIENCY AND INCREASED SECURITY

Minimizing prep, paper handling, and other manual tasks not only improves efficiency, but also results in superior document integrity. Documents are handled once and converted to image. As documents are scanned, operators can view images in real-time to ensure proper capture and identification. This reduces time-consuming and costly rescans later in the process.

Falcon™

FEATURES & BENEFITS

Three Unique Models: Falcon, Falcon Transportable & FalconRED

From Document Conversion Services to Mobile-Scanning to Digital Mail Centers, Falcon is the only prep-reducing scanner on the market to combine all your scanning needs into one universal document scanning workstation. Exclusive design options address the toughest workflow challenges that your business will face.

Versatile Feeder Capabilities

OPEX's feeder provides a dynamic process that is proven to reduce prep and increase scanning accuracy. Patented drop-feed technology allows for efficient scanning directly from file folders, while intelligent packet sensing capabilities adjust track speed for optimal scanning throughput. The high-capacity feeder handles large stacks of mixed document types making the need for additional high-volume production scanners unnecessary. The Rescan Feeder is designed for fast and efficient rescans without disrupting the overall scanning process.

Operator Friendly, Ergonomic Design

Falcon has a customizable work surface with options to fit the footprint of most scanning environments. The optional motorized table provides adjustable height settings for maximum operator comfort. Falcon comes equipped with a 22 inch touch-screen monitor for enhanced viewing of scanned images and easy one-touch page-type classification.

Prep-Reducing CertainScan™ 3.0 Software

OPEX's feature-rich CertainScan software is the perfect complement to Falcon providing auto-classification and the most intuitive way to visually classify documents as they are scanned. The versatility of this platform allows users to maximize the many features of their OPEX scanner and minimize the preparation of documents prior to scanning.

Falcon Specifications:

Document Feeding	High-capacity auto feed Continuous drop feed Packet feed Rescan feed
Document Width	2.0"-12.25" (5.08 cm – 31.12 cm)
Document Length	3.5" - 25.50" (8.89 cm – 64.77 cm)
Scanning Speed	Up to 110 ppm / 220 ipm @ 300 dpi
In-line Recognition	OCR, OMR, barcodes, document type ID
Media Detection	Multifeed detection, height, length, skew and envelope detection
Document Separation	3 programmable output sort bins 1 programmable straight-path sort bin for extra thick and delicate items
Daily Duty Cycle	Unlimited
Maximum Dimensions (H x W x D)	64.35" x 86.50"x 32.27" (163.45 cm x 219.71 cm x 81.97 cm)
Bundled Software	CertainScan™ 3.0 64 bit host software, CertainScan Essentials,™ CertainScan Edit,™ OPEX Transform,™ OPEX standard barcode package, Windows 7 64 bit
Additional Features	OPEX Provided CertainScan PC Flat-panel 22" touch-screen Packet ID Early envelope detect IDAssist™ Integrated workstation
Popular Optional Features	Audit trail printing (front and rear) Rear graphics printer (prints signature and Code 39 barcode) VRS* technology image enhancement Key Assist™ Reference ID MICR/MICR+ OPEX provided generic mount for external capture device Multi-page type IDAssist *VRS is a registered trademark of Kofax, Inc.
Available as	FalconRED and Falcon Transportable
Typical Applications	Forms processing, invoice capture, backfile/archive scanning, school & medical records, legal discovery, insurance & mortgage document processing
