

Mavro Empowers Clients with Targeted Training Programs

Knowledge Is Power

“Upon the subject of education ... I can only say that I view it as the most important subject which we as a people may be engaged in.” - Abraham Lincoln

In light of the sophistication of MavBridge™ software, Mavro provides training optimized for each customer’s needs. During the initial implementation process, the Mavro project team evaluates the strengths and needs of our customers’ personnel associated with the project and tailors a training schedule to best meet their requirements.

Thereafter, Mavro provides a variety of video and hands-on training sessions plus reference documentation. The materials are available for download from our website, which is accessible on a 24x7 basis.

For a customer in need of further technical training, additional sessions may be conducted by Mavro’s Implementation Team via WebEx or at the customer’s facility. All members of Mavro’s Implementation Team have extensive industry experience and are fully qualified to conduct technical training. Training classes cover a number of topics such as: Client & Document Setup, Reporting, System Administration, and Best Practice Troubleshooting. Additional classes can be customized for a customer’s software environment and specific needs as required.

A supervisor who attended a recent Mavro training session provided the following feedback “the instructor did a phenomenal job of teaching the team what they needed in a real, hands on environment...it was by far the best training they have ever had.”

To learn more about MavBridge™ and our training capabilities, please send us a note at info@mavroimaging.com or give us a call at 609-949-9010.

Trade Show News

Join Us at the 85th Annual Tax Assessor - Collector Association of Texas Conference

Visit the Mavro experts at the [TACA 2019 Conference](#), June 10-12 in Galveston. Michael McGowan will be in Booth #317 demonstrating how Mavro’s remittance, forms, and document imaging solutions have helped counties of all sizes add flexibility, cost savings, and efficiency to their operations.

We will also be located right next to the Opex Corporation booth, and they will have a Falcon™ Series scanner available for hands-on review. Stop by! We’d love to discuss our latest automation and enhancements with you.

What We Do

Mavro provides a wide range of products and services from consulting to end-to-end payment, forms, and document processing systems that will efficiently address your unique challenges. If you are doing manual payment, forms, or document processing, have an outdated system that needs to be replaced, or have an automated system that needs to be made more efficient, [contact Mavro Imaging](#).
